TOUR HIGHLIGHTS:

VDNKH (All-Russian Exhibition Centre)

A huge open-air museum, it was established in 1935 and during the Soviet times hosted more than 300 national and international exhibitions, conferences and seminars each year.

COSMONAUTICS MUSEUM

There are 3,500 exhibits including full scale model of the Soviet-era space station Mir, which visitors can walk through. Museum is even more modern than museum in Washington. You can go inside the exhibits and touch everything!

UNDERGROUND BUNKER TAGANSKY

After a ride on a rapid elevator 65 meters under the ground you will see one of the most secret military facilities of the USSR – a Secured Command Post «Tagansky». During the visit you will pass through the secret tunnels, see samples of arming and communication equipment.
