TOUR HIGHLIGHTS:

LENIN IS ALIVE!

You will be told the history of magnificent Saint Petersburg that became the cradle of the Revolution and the centre of alternative cultural life in the USSR. The main accent will be put on the person of Lenin, whose name was given to the city in the soviet times and whose personality still plays an important role in the nowadays St.Petersburg life.

Art Centre " PUSHKINSKAYA 10"

For long years the native culture in the USSR had been divided on "official" (Soviet) and "nonofficial" one. "Pushkinskaya-10" is the brightest representative of the second one. It began when a group of independent artists and musicians occupied a condemned building on Pushkinskaya Street. Nowadays "Pushkinskaya 10" is a museum of non-conformist art and a center that supports creative people to do their own art projects.
